Mr. Shailesh Khaitan

Chairman

Our vision is to create a vibrant centre of excellence, to create opportunities for the all-round integrated development of children suited to the demands of this era of convergence and globalization. Guiding the generation next in these turbulent times of confused values is a great challenge. Our team - the management, the administration, the teachers and all other members of the staff accepts the challenge and we will do our best to guide them in the right direction.

Mr. S.L. Gupta

C.E.O.

Our aim is to equip our children with the qualities needed to lead a successful life in society. In order to do so, we follow a curriculum, which meets the needs of all in a manner that stimulates, challenges, excites interest and providing the necessary training and enabling them to enjoy the opportunities available to them. At B.D. Memorial Jr. School, it is our constant endeavour to promote self-confidence and self-esteem in our children and to help them recognise the importance of human relationships based on understanding, tolerance and mutual respect.

Principal's Message

Dr. Suman Sood

Director Principal

"Free the child's potential and you will transform him into the world"- Dr. Maria Montessori. This is what we at B.D. Memorial Jr. School believe in! We assure an exciting, meaningful and blessed beginning of your children's lifelong journey of discovery and learning.

"Education is not preparation for life; education is life itself"- John Dewey. It is a continuous process, a harmonious and synchronized combination of skills, intellectual power and value system, preparing young minds to develop an in-depth understanding of fundamental skills in different subjects, current world events, intercultural dialogue and fluency in the new technologies, thus enabling them to be worthy global citizens.

It gives me a sense of pride to say that at B.D. Memorial Jr. School we do our best to craft an atmosphere where you can find the great Indian culture and tradition along with the modern Indian glorious achievements and ethos. We strongly believe in partnership between students, parents, teachers and support staff, thus creating a positive environment to empower students in both local and global perspectives. Our schools are schools with a difference, where individuality, creativity and innovation are valued and encouraged. We believe in giving children strong roots to stay grounded and confident wings to soar high.

Our Centre Heads

At B.D. Memorial Jr. School, leadership is a partnership among the school management, teachers and parents. Together, we create a nurturing and joyful journey of learning for every child.

EYFS

Early Years Foundation Stage

01 B.D. Memorial Jr. School has adopted the Early Years Foundation Stage (EYFS), a UK-based framework, as an integral part of its early childhood education programme.

02 Our EYFS-inspired approach places the child at the heart of learning, focusing on holistic development through play, exploration, meaningful experiences and strong teacher-child relationships.

It nurtures children across key areas including Communication & Language, Personal, Social & Emotional Development, Physical Development, Literacy, Mathematics, Understanding the World, and Expressive Arts & Design.

03 At B.D. Memorial Jr. School, we have adapted the principles of EYFS to suit the Indian context and the needs of our young learners, integrating them with our commitment to foundational learning, play-based pedagogy and the vision of NEP 2020.

04 Our aim is simple: to give every child a joyful, purposeful and developmentally appropriate beginning to their educational journey.

Parents As Partners

Together, We Nurture. Together, We Inspire. Together, We Grow.

At B.D. Memorial Jr. School, we believe that education is most meaningful when school and home work hand in hand.

As an EYFS-inspired school, we recognise parents as their child's first educators and value the unique understanding they bring about their child—their interests, strengths, personality, experiences and aspirations.

Our partnership with parents goes beyond communication.
It is a shared journey of understanding, supporting and celebrating every child.

Our Parent Partnership in Action

Understanding Every Child

We encourage parents to share their child's interests, experiences and individual needs, helping teachers create learning experiences that are meaningful and personalised.

Learning Beyond the Classroom

Through simple, joyful ideas for home, parents are encouraged to extend classroom learning through play, conversation, reading, exploration and everyday experiences—without turning home into another classroom.

Two-Way Communication

Regular interaction between teachers and parents helps us share observations, celebrate progress, understand challenges and work together to support each child.

Parent Workshops and Learning Sessions

We empower parents with practical insights into early childhood, including play-based learning, positive parenting, child development, screen-time awareness, nutrition, emotional wellbeing and creating enriching learning environments at home.

Parents as Contributors

Parents are invited to become an active part of the school community by sharing their talents, experiences, professions, cultures and ideas through special classroom experiences, celebrations, projects and events.

Celebrating Every Milestone

We celebrate not only academic achievements but also the little moments that matter—a new friendship, growing confidence, independence, kindness and curiosity.

Our Belief

At B.D. Memorial Jr. School, we strive to create a trusting, respectful and inclusive partnership where every parent feels heard, every child feels understood and every learning experience becomes an opportunity to grow.

We Don't Just Educate Children.
We Build A Community Around Them.

STEM & STEAM

Where Curiosity Becomes Discovery

At B.D. Memorial Jr. School, we introduce young learners to the exciting world of STEM (Science, Technology, Engineering, and Mathematics) and STEAM (Science, Technology, Engineering, Arts, and Mathematics) through play, exploration and hands-on experiences.

Children learn to question, investigate, experiment, build, create and solve problems—turning everyday experiences into opportunities for discovery.

Our STEAM Experiences Encourage Children To:

- Explore — discover how the world around them works
- Question — wonder, ask "why?" and think beyond the obvious
- Solve — experiment, try, rethink and find solutions
- Create — combine imagination, art and innovation
- Collaborate — share ideas, communicate and learn together

From building and construction challenges to simple science experiments, nature investigations, technology-based activities, creative design and mathematical exploration, our children learn by doing.

Rooted in our EYFS-inspired, play-based approach, STEM and STEAM are not taught as separate subjects; they are woven naturally into children's everyday learning experiences.

We nurture little thinkers today,
who will become confident innovators tomorrow.
